

# SkyPlug Specification

Make sure your plants are grown to cope with a harsh rooftop environment rather than normal peat plugs destined for nursery or bedding. SkyPlugs are the first plants to be grown with advice from University experts to ensure better establishment and survival.

## SPECIFICATION

Volume	65cc
Depth	62mm
Dimensions of top face of tapered cell	35x47mm
Grown in free-draining lower nutrition growing medium	peat free
	air filled porosity 17.2 %
	plant available N 186 mg/l
	plant available P 88 mg/l
plant available K 372 mg/l	
Quantities	100 plants per tray
